City of Glendale  
City Counsel  
Glendale, Utah 84729

Gentlemen:

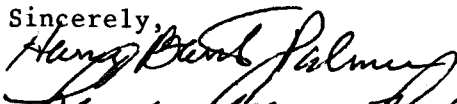

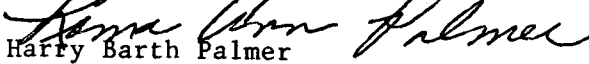

This letter is to inform you of our position in regard to the spring on our property in Glendale, Utah.

The State of Utah, has informed us that they have requested that you ( the City of Glendale, Utah) cap the well that you drilled below our spring. They say that it can be capped, and if it is the flow from the spring should return. We believe that this should be the first option that you should consider.

The second option would be that you pump water from the well you drilled, up onto our property. This would be in accordance with the contract signed by us and the City of Glendale, Utah, on March 30, 1978. We feel that either of these two options provide an equitable and fair way to resolve this problem.

This situation has gone on unresolved far too long and an immediate solution need to be found. We feel that we have shown a great deal of patience and feel that action is long overdue. We will have to find other means to reach a solution if an answer and action is not forthcoming before Jan. 1993.

Sincerely,

  
  
Harry Barth Palmer  
Roma Ann Palmer
